

SUPERIOR NATURAL STONE FOR YOUR FLOORS

STAMFORD
STONE CO.
AT HOME

ENGLISH LIMESTONE

Our range of beautiful natural limestone, sustainably quarried from our own Clipsham quarries in Lincolnshire, adds a stylish elegance to any home.

More famous for its use in architectural masonry in notable buildings, such as the Palaces of Westminster to modern design at the new colleges at Oxford and Cambridge University, Clipsham has a long and rich history in English Architecture.

Our modern production technologies allow us to manufacture our precious material into a range of finishes and sizes, to create flooring that complements the most Traditional Georgian Country Style to a Minimalist Scandi Interior Décor.

AUDBOURN DISTRESSED

A favourite with traditionalists, Audbourn limestone blends warm hues with intermittent grey veining, making it the perfect choice for cottages, barn conversions and farmhouses.

CHARLBURY BEIGE

This hardwearing, solid beige classic English limestone is full of character and charm, harmonising beautifully with any environment.

CHARLBURY MIX

Fusing soft grey tones with classic beige, this stunning honed limestone adds style and beauty to larger rooms.

WALCOTT HONED

Ideal for creating a seamless flow between rooms, Walcott's creamy tones give an exquisite, understated look particularly suitable for kitchens and open plan areas.

WALCOTT ONE CORNER

Creamy tones with a subtle corner pattern give a classic look that's especially popular in hallways and reception rooms.

WALCOTT AGED

Handcrafted for an aged, pillowed effect, this beautiful limestone is characterised by soft honey and deep cream tones enhanced by subtle fossil markings.

WALCOTT OCTAGONAL

Blending classic warm neutral tones with yellow hues, this popular stone is handcrafted into worn octagonal sets ideally suited to formal hallways.

WESTBY ONE CORNER

The sleek, creamy tones teamed with a subtle corner pattern provides an elegant finish, perfect for reception rooms and formal hallways.

WESTBY OCTAGONAL

Hand crafted into contemporary cabochon octagonal sets, this beautiful stone boasts rich, creamy tones that are suited to formal hallways.

WESTBY AGED

With minimal fossil markings, Westby's light creamy tones and aged, pillowed finish will enhance any space.

WESTBY HONED

Westby's rich creamy tones give a sleek look that is ideal for hallways and perfect for a smooth, minimalistic flow between rooms.

WORLD STONES

Buyers are increasingly considering the environmental and human costs of the products they choose, as part of the Ethical Stone Register, we have sourced a range of exquisite Limestones and Marbles from around the world, ensuring their supply chain has a positive social and ecological impact on the communities involved in its manufacture.

Chosen specifically for their beautiful tones, which aren't available from UK quarries, our range of World Stone is durable and versatile. These stones come in a variety of sizes, styles, and finishes, and can be used in any area of your home.

CATHEDRAL GOLD

Echoing the creamy golden hues of the Cotswolds, this robust limestone is sandblasted and lightly tumbled for a softer finish.

This product can be used for both interior and exterior projects.

BOURGOGNE

A popular, world famous limestone dense in colour with diverse textures, giving the feel of a stone that has been in place for centuries.

FARMHOUSE BUFF

This light beige stone with a buff top and lightly tumbled edges is a natural choice for rooms where seamless flow matters.

HAMMERSMITH TUMBLED

A perennial favourite, the warm stylish tones of this highly durable, tumbled stone brings a solid traditional look to any room.

HAMMERSMITH ETCHED

A perennial favourite, the warm stylish tones of this highly durable, sandblasted stone brings a solid traditional look.

JACOBEOAN

Hand-aged with tumbled edges for a look that dates back to the seventeenth century, Jacobean's blend of brown, grey and cream hues stand the test of time.

NORMANDY BUFF

Consistently popular; this stone benefits from a very subtle aged finish which is a perfect partner to its soft cream and buff tones.

NORMANDY GREY

Stylish and elegant, this understated pale grey limestone with distressed face and gently tumbled edges fits in beautifully with its surroundings.

ROCCO BUFF

Fusing two world stones to create a unique blend of colours, this beautiful timeless stone will match in perfectly with any décor.

OTTOMAN GREY

Shades of grey with black silt swirls and contrasting straight edges make this enigmatic Turkish marble particularly suitable for bathrooms.

MARINA WHITE

White and citrus inspired tones infused with black markings and finished with straight edges turn this marble into a true Turkish delight.

NEW STONES

We're delighted to unveil the latest additions to our natural stone collection, giving you even more choice to elevate your next home improvement project. By combining natural appeal with practical durability, these new additions offer a lifetime of luxury and heritage.

We carefully select our stone to complement the existing Stamford Stone at Home range and harmonise with a variety of interior décor styles. From the subtle pink, cream and grey shades of Heritage Autumn to the unique fossil inclusions of Purbeck Ragstone, there's an elegant, characterful stone for every taste.

HERITAGE AUTUMN

This tumbled stone with a riven surface mixes shades of pink, cream and grey for a soft, traditional look.

BURGHLEY BEIGE

Featuring stunning large format stones with beige, brown and cream tones, this beautiful stone compliments large areas both inside and outside. Calibrated and hand finished by craftsmen, the stone has an authentic antique look providing character and elegance to the area.

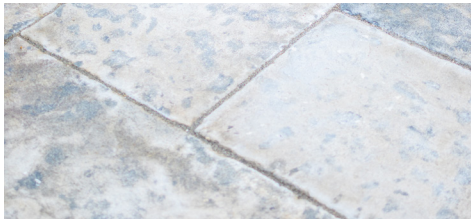

NORTHUMBERLAND BLUE

English sandstone with deep rich hues and classic English charm.

PURBECK RAGSTONE

Filled with unique fossil detail, this highly durable limestone is known for its ability to withstand weathering and maintain its appearance over time, providing a timeless and elegant aesthetic.

BURGHLEY GREY

Featuring stunning large format stones with blue/grey tones, this beautiful stone compliments large areas both inside and outside. Calibrated and hand finished by craftsmen, the stone has an authentic antique look providing character and elegance to the area.

Our natural stone flooring range has options to suit all types of property; from the traditional Georgian country style to a minimalist Scandi interior décor. The spectrum of natural, warm hues and finishes give the collection wide appeal.

For specialist advice and to place an order, please call us on **01780 740 970**.

ANCILLIARIES

Nothing beats tried and tested products. Thanks to our experience, we know which products perform best with our stones – and we're always on the look out for innovative developments.

SEALANTS

We supply products that finish the stone with a very subtle sheen, completely protecting your new limestone floor. Once installed, we can recommend products for weekly maintenance which will enhance the performance of your floor.

ADHESIVES

We are very familiar with the best type of adhesive for specific requirements – slow-setting, quick-setting, cement based or gypsum based. Tell us about your project and we'll give you our expert opinion!

GROUTS

With limestone, the general rule is to use grout two shades lighter than the stone itself. We can advise which grout is best for the particular stone that you are using, so please do give us a call. Our experienced team will be able to recommend what will work best for the limestone that you are fitting.

MOVEMENT MEMBRANES

We can supply and source a number of movement membranes used primarily to reduce the risk of stress fractures appearing in your floor due to a building settling. These are often recommended for use in large open plan areas with under floor heating.

PRIMER

Our Eco Primer is a certified eco-friendly, water-based product used to treat and prepare dry, porous surfaces before fixing tiles with adhesives. These surfaces include cement, gypsum, asphalt, ceramic and marble as well as anhydrites. The primer reduces absorption and improves bonding. It's free from solvents with very low volatile organic compound emissions, perfect for all tiling projects.

DECORATIVE TILES

We're delighted to announce a new range of on-trend decorative natural stone, ceramic and porcelain tiles to complement our own range of natural stones.

The Stamford Stone Edit features our hand picked collection of over 70 decorative tiles, featuring handcrafted designs in colours inspired by the beauty of nature.
